

7. Project Documentation Phase :

Deliverables

- Project report (this document) with screenshots of each activity.
- Update Set exported as XML (sys_remote_update_set file, about 182 KB).

Deployment Steps

7. Open Local Update Sets and select Project Update Set.
8. Change State from In progress to Complete and save.
9. Under Related Links click Export to XML.
10. Share the downloaded file by mail or WhatsApp and import it in another instance to reuse the solution.

Maintenance Notes

To support a new issue type, add a new choice with its dependent value, then add a new Else If branch in the flow.
